# Personal Invitation

to our “**Make Change Happen**” Nile Journey 2021,

Trip 1: April 24th to May 1st

Trip 2: May 1st to May 8th

*Where action meets consciousness.  
Where the brain meets the heart.  
You are invited to a beautiful journey...*

*Join us!*

Dear “humanist” (-:

The Nile is the birthplace of this human era and has on many levels impacted our lives deeply.

Our dream is to share this experience with our friends and family. As such we would like to invite you for a magical trip from Luxor’s “male” to Aswan’s “female” energy.

The journey is free flowing, many possibilities will be offered during the cruise, going from visionary talks to concrete projects and workshops, meditation, yoga and temple visits... a healthy mix topped with delicious food! It will be up to you to choose what speaks most to you and what you would like to give and receive.

There is reasonable internet on the boats too. ;-)

We look forward to hopefully see you on the Nile

# Our Wishes

The world needs positive change and many people like you and I want and can make that difference. The world today is comprised mostly of pyramids, where a few people control the many and fear is the main instrument for control. We need our freedom back and need respect for humanity, our planet and it's resources. We need a structural change which comes from within us.

**To achieve this freedom the world needs:**

- **More consciousness !**
- A global education program with as goal to lower carbon emissions with at least 10% and give hundreds of millions of students access to all required digital life needs.
- A **new internet** which is faster, greener and neutral, it needs to be accessible to all and affordable. An internet that allows us to freely communicate, collaborate, educate inform, ... **We need our data ownership back.**
- New types of **digital currencies**, money is a taboo for many, yet still new types of money have the potential to change the world (refugees, non banked people, ...) .
- A more **modern education system** reflecting the new evolving time spirit (empowering the skills we are born with rather than creating a uniform society where everyone needs to follow the norm).  
This should start in areas where there is no proper schooling.

**We believe together we can make all of this possible.**

# Our goal for the Nile trip 2021

Our aim is to create a FreeFlowing Digital Nation which is not limited by country borders, color of skin or religion. A Nation where everyone can contribute to their own ability in all freedom. A Nation where respect and striving to more consciousness is the basis.

Each project which has as purpose to help the world, believes in the FreeFlow Values and has a role to play in achieving our BHAG (unlimited access to education, internet & banking services for 1+ billion people for <1 USD per month) is more than welcome and can benefit from the support of our community.

## Concrete goals

- Build connections between people and different communities (bridge building)
- **Define the global education program.**
- **ThreeFold Pre-Launch Activities (Digital Twin, TF Cloud 3.0, Threefold Token,...).**
- Knowledge sharing: see list of suggested topics (everyone can collaborate)
- Co-create specific deliverables (like new conscious collaboration tool, new internet, ...)
- Spiritual experience : there are experienced healers on board which are there to help

## Bodour Al Qasimi

Bodour Al Qasimi is President of the International Publishers Association. She sees publishing as a conduit that connects people, places, and ideas. Her work has already led to Sharjah's recent success as the UNESCO World Book Capital in 2019/20, where the emirate has created a number of initiatives that utilize books as a way to unite people, break down barriers and help understand other cultures and other points of view. She is a moderniser with a desire for change – particularly when it comes to the empowerment of young women and the position of all women in publishing – and in 2019 established PublisHer, an informal networking body that seeks to increase the number of women in leadership roles within the publishing industry.

She is a trailblazer in the global publishing scene, Bodour Al Qasimi is creating a positive impact on the world through freedom to publish, enlightenment of children, and empowerment of women. She encourages human expression through creative arts, and publishes works from different authors who push the boundaries of social conversations. She is an avid advocate of the role of books and literacy to enlighten children, and has led, through her own Kalimat Foundation for Children's Empowerment, a number of campaigns to provide thousands of books for refugees and children affected by conflicts and hardship around the world.

Passionate about supporting entrepreneurship, she established Sheraa (Sharjah Entrepreneurship Centre) in UAE in 2016 as a platform to cultivate a generation of changemakers in her community positioning it globally as a vibrant start-up hub. Bodour has a Bachelor's degree in Archaeology and Anthropology from Cambridge University and a Master's degree in Medical Anthropology from London's University College London. She has also completed publishing courses in Yale and Columbia University. She is a mother of 4 children and enjoys climbing mountains in her spare time.

# Fernando del Sol

As a first time filmmaker, Fernando del Sol passionately decided to finance his initial project by selling a successful San Francisco business named in honor of his Grandmother. Momi Toby's Revolution Café. To fulfill his Vision of shooting a documentary on the Burning Man festival in 1997, he first founded Peyote Pictures and rose out of the desert ashes with fin de millennium Alchemetary, Burning Man, Where's the Fire?

After a four year journey traveling around the world showing this message driven piece to alternative communities around S.E. Asia, Japan, India, Europe, and Mexico, Fernando began the long process of documenting the World's largest human gathering, the Kumbha Mela. With an estimated figure of 50-80 million Hindu pilgrims arriving at the confluence of India's three sacred rivers in Allahabad, he and his crew documented ancient fire rituals & bathing ceremonies performed by wandering tribes of Holy Men called "Sadhus". Fernando made his way back to his original inspiration for Peyote Pictures, Real de Catorce, Mexico, where indigenous Aztec cultures believe the Sun was born in a mythical desert called "Wirikuta", where the magical cactus Peyote grows. There, he was given the rare opportunity by a Mexican-Lakota Roadman to document a Peyote Teepee ritual and the Temascal-sweat lodge ceremony facilitated by Chichimeca Indians. Soonthereafter, Fernando was sought out by a Persian Visionary Sufi Mystic named Sahar Farmanfarmaian to help guide her through the filmmaking process developing and completing a personal project she envisioned called Caravan of Light. ...

# CARLITO DALCEGGIO

**Art: Live Painting, Film, Puppets & Costumes**

*"Painting with the modesty of a dervish and the excitement of a poet, Carlito Dalceggio, paints the world of sound with color." Mercan Dede*

*"By the act of painting, I transcend my human state. I search for other ways. I seek for a universal pattern, the ultimate strokes of freedom. I reach a visionary state and totally leave reality to give shape to another world. I breathe to paint, I paint to breathe.*

*Art does not try to reproduce nature, Art is Nature...*

*Every painting is a key, a window to the inner world*

*To live a mystic life in the modern world*

*Eroticism, freedom, seeking for new ways I paint an imaginary mythology, in a constant research of new forms, new techniques and new medias. With my painting travels and live performances, I provoke the encounter with the viewer at the moment of creation, transforming the Ritual of Creation.*

## VISION

*Come dive into New Myths & climb back up the Spiral Seashell to the Origin. There exists on the Planet an Island WE have ALL created, a Secret Garden of the Soul of Everyone who is seeking New Ways to reach a Higher level of Consciousness in a*

*Laboratory of Existence called*

**CARAVAN OF LIGHT...**

Carlito Dalceggio co-conceived a beautiful story about a traveling Caravan with the powers to illuminate the darkness and dispel the illusions of separation in our minds. Dissolving the lines between Imaginary Visual Reality and Apparent Perceptual Reality... A passion project was born resulting in the film and soundtrack release called, Caravan of Light : Initiation & Incantation. And thus, the tale of Caravan of Light begins...

A photograph of a young boy with dark hair, shirtless, climbing a thick, light-colored rope on the side of a boat. He is gripping the rope with both hands, looking upwards. The boat is moving through dark blue, choppy water, with white foam from breaking waves visible. The background is dark, suggesting the photo was taken at night or in low light.
